This is a noise map (Hlukova mapa) for the parallel runway 06R/24L at Prague Ruzyně Airport. The map displays sound level contours in decibels (dB) across a geographical area. The contours are color-coded: green for levels above 45.0 dB, yellow for 50.0 dB, orange for 55.0 dB, red for 60.0 dB, dark red for 65.0 dB, purple for 70.0 dB, blue for 75.0 dB, and dark blue for 80.0 dB and above. The map shows a dense residential area with numerous buildings, some of which are situated within the higher noise contours. The terrain is depicted with green shading and contour lines. A road or railway line runs diagonally across the map, with a '3.0' label indicating a specific point or distance. The map is framed by a coordinate grid with values ranging from -756350 to -753550 on the x-axis and -1041250 to -1041950 on the y-axis.
